EDUCATION

Shri Ramswaroop Memorial College of Engineering and Management

Computer Science and Engineering

November 2022 - January 2026

Delhi Public School

Class XII - 79%

March 2016 - May 2021

Class X - 84%

SKILLS

- **Languages:** C, Python, SQL, HTML, CSS, Javascript.
- **Frameworks:** Pandas, Numpy, Matplotlib, Bootstrap.
- **Tools:** PySpark, Power BI, Excel, MySQL.
- **Platforms:** Jupyter Notebook, Visual Studio Code, Git.
- **Cloud Technologies:** Cloud Computing (Microsoft Azure / Google Colab).
- **Soft Skills:** Problem-Solving, Communication, Versatile, Teamwork, Adaptability, Time Management.

PROJECTS

Covid-19 Report Dashboard [🔗](#)

January 2025

- **Tech Stack:** Power BI, Excel, SQL, SQL Server.
- **Description:** Designed and developed an interactive COVID-19 dashboard in Power BI using 100K+ records with demographic, clinical, and socio-economic data. Visualized key metrics such as daily cases, deaths, vaccination rates, and hospitalizations across 50+ countries. Implemented 10+ slicers, time-series charts, and geo maps, enabling data-driven insights for 200+ users.

Home Made Food Website [🔗](#)

May 2025

- **Tech Stack:** HTML, CSS, Bootstrap, JavaScript.
- **Description:** Developed 'Home-Made Food', a web platform connecting 20+ home chefs with users seeking healthy, affordable meals. Built with HTML, CSS, and JavaScript, featuring a 100% responsive design for all devices. Deployed via GitHub Pages, showcasing front-end development skills, and 50% faster load times.

IBM AI Powered Job Market Project [🔗](#)

July 2024

- **Tech Stack:** Python, Pandas, NumPy, Matplotlib, Google Colab & EDA.
- **Description:** Developed an end-to-end data analysis and visualization project in Google Colab using Python on a dataset of 50K+ records. Performed data cleaning, preprocessing, and EDA to uncover key trends and insights. Created 15+ interactive visualizations with Pandas, Matplotlib, and Seaborn, showcasing analytical skills and ability to derive actionable insights from real-world data.

E-Commerce Dashboard [🔗](#)

December 2023

- **Tech Stack:** Power BI, SQL, Excel.
- **Description:** Developed Madhav E-Commerce Dashboard to monitor and manage 100+ products and 500+ user records for an e-commerce platform. Improved reporting speed and decision-making efficiency by 40%, showcasing skills in data analysis and dashboard visualization.

CERTIFICATE

Practice Python by Solving 100 Interactive Python Exercises(Udemy)

- Completed a Python certification demonstrating proficiency in fundamentals, including control flow, loops, functions, and data structures. Gained strong skills in logical problem-solving.

Python 101 for Data Science(IBM)

- Learned the data ecosystem, including ETL processes and big data fundamentals. Gained hands-on skills in data gathering, identification, and cleaning for analysis.
